Re: Dan Pirvulescu and Renaissance

Consulting Associates of New York, Inc. has worked with Dan Pervulescu and his Renaissance crew on multiple window and curtain wall projects in New York and two Curtain Wall project in Washington D.C.

We have found the Renaissance crew to be efficient, while maintaining a high degree of quality control. In addition Mr. Pervulescu has been extremely cooperative in addressing changes and modifications required to accommodate as built conditions as well as deficiencies in various substrates.

Renaissance has provided adequate manpower and equipment to maintain schedules and when necessary worked extra hours and / or provided additional manpower and equipment to compensate for extended inclement weather delays.

We strongly recommend utilizing Mr. Pirvulescu and his Renaissance team on any window or Curtain wall project.

If you require additional information please do not hesitate to call.
